House committee- Somersett/Milteer- CBS scoop HM 3/12/77

CBS evening TV news made a big thing of this sensational,exculsive break in the House investigation of the King assassination.

It was the Dan Christensen story from the October issue of Miami magazine.

Some of it.

CBS quoted a committee source as astounded its big thing had come out in detail so close to its report. Aghast, I think the word was.

Then they had Fauntroy pretending to be reticent,admitting nothing, pretending much.

They've done some work on it or the committee gave it what Dan gave the committee. They even had a still picture of Sapp.

The non-story was not a non-story scoop ever, this being the time of non-stories.

It was aired in Memphis yesterday.

From another source I hear that the committee is working on the theory that Raoul is Jerry Ray.
